### Spotlight on our Newest Program - Cricket!

This program is intended both for children who have no prior experience with cricket as well as players who have some experience with the game. All are welcome. \* Note that players who may have more experience with Cricket, there will be information available in coming months for a possible Travel Cricket Tryout for U11 and U14. Information will be available on website.

Our Cricket program will focus on building on the basic skills and to get them comfortable with batting bowling and fielding. The main focus is to have each of the children participate and enjoy the game. We hope the kids begin to love the sport and grow into it.
